

Q You are saying before you got shot?

A No, I am saying this. I would have told his father first before I would have thought about going to the police, I would never have gone to the police unless they shot at me. That is why I went to the police.

Q Did you say you told his father before you got shot, who had killed the son?

A I told I had an idea but I didn't know for sure. He had saw me talking to him.

Q Didn't his father come around down to you: Let's go down to the police?

A He suggested to me, but I didn't want to, I wasn't going.
